Paul Searles

January 07, 2004

A Letter of Recommendation:

I have known Paul Searles for over 20 years and his music and his singing style just continue to get better, much like a good bottle of wine. My wife and I have hired Paul to play not only at our wedding, but at our daughter's wedding as well. Over the past few years, we have hired Paul to play at parties, both birthday and Spring-Summer type outdoor barbecues. And just this past August, Paul was kind enough to play at our First Annual "Triple J" Party, which was a Outdoor Life Celebration Party and fundraiser for the Children's "Make-A-Wish" Foundation. We had over 100 people at this event and all there loved his music. His setup is extremely professional and the range of music that he can entertain with is phenomonal. I guarentee the crowds will be dancing.

Paul has a unique ability to interact with the audience, making them feel like they've known him for a long time. His musical ability and entertainment style is of the kind that allow the people at the party to feel good, connect with good friends and sing along and dance to good music. If you've ever had the opportunity to see Paul perform live at one of the many local Ft. Collins night clubs, you will know exactly what I mean.

I highly recommend Paul Searles for entertainment at Weddings, Parties, and the like. Your guests will be glad you did. Feel free to contact me with any further questions, by phone at 970-223-6050 or email at:

tjbuilders@hotmail.com. (Please refence Paul Searles in the Re: section if you email me.)

Sincerely,

Terrence A. Jones (Terry)
